

DC-2009 Workshop Program

Tuesday 13 October

	Time and session	presenter	live/canned
	14:00-17:00 Special session on functional issues related to linked data	chair - LN	live
	In this session, we first outline the three sessions that form the Practitioner Workshops. Then we offer some focused demonstrations showing the range of functions that projects linking diverse data aim to achieve. Functional issues are top-level and understandable to everyone, without technical expertise or jargon.		
Big Room	14.00 – 14.10 Outline of workshops	chair - LN	live
	14.10-14.15 Participants introduce themselves to their neighbours and discover what their neighbours do in terms of using DC metadata. Participants to work in twos/threes?	chair - LN	live
	Big Room: Linking formal data	chair - Eric Miller	
	14.20- 14.35 Jane Greenberg about linking data in the Dryad Project	Jane	canned
	14.35-14.55 Hans Overbeek on Dutch government standard OWMS	Hans	canned
	14.55-15.15 Antoine Isaac on Europeana http://www.europeana.eu/portal/ (canned talk and a hands-on task for participants)	Antoine	canned
	15.15-15.30 Small group discussion and preparation of summary	chair - LN	live
	Room 1: Linking feral (uncontrolled) data	chair - Eva Mendez	
	14.20-14.30 Eric Childress & Andy Havens on how OCLC is using blogs, tweets etc	Eric	canned
	14.30-14.40 Eva Mendez and Ana Alice Baptista on social tagging, tweet hashes etc	Eva	live
	14.40-14.50 Brian Kelly on using and linking the data	Brian	canned
	14.50-15.00 Saeed Moaddeli on identi.ca and RDF for linking data	Saeed	canned
	15.00-15.15 Survey of who uses what and who would like what (to be prepared in advance and worked on by participants in session)	chair-Eva	survey
	15.15-15.30 Small group discussion (and preparation of summary reports)	chair - Eva	live
	15.30-16.00 Afternoon tea		
	Big Room (Working in groups of 6 people – each with a reporter)	Chair - Emma Tonkin	
	16.00-16.10 Reports from earlier session	Chair - Emma	live

16.10-16.25 Stefano Anibaldi on how data is collected and integrated by FAO using Drupal (http://drupal.org/); mapping Drupal metadata to a DC AP; using the openCalais module to link to data on the Internet; zemanta, and how the tools could be enhanced through interaction with structured metadata.	Stefano	live
16.25-16.40 Sudeshna Das on the Science Collaboration Framework, based on Drupal with access to RDF Linked Data	Sudeshna Da	canned
16.40-16.45 Makx Dekkers with quick tour of DCMI information services (Website, registry, email lists, wikis, blogs, Twitter, Flickr, )	Makx Dekker	live
16.45-17.00 Discussion of DCMI information services	Chair - Makx	live

Wednesday 14 October

Time and session	presenter	live/canned
14:00-17:00 Special (not too technical) session on technical issues for linked data	chair - Liddy Nevile	
<p>In this session, we first outline the program for the workshop and then the goals. Typical technical issues relate to how to make Application Profiles so they can interoperate with other Application Profiles, how to establish vocabularies that can be shared and re-used and linked, and how to discover what others have done so that you can re-use their work rather than re-invent the same work.</p>		
Big Room	chair - LN	
14.00-14.05 Introduction to session	chair - LN	live
14.05-14.10 Participants to sit with 'new' people and introduce themselves	chair - LN	live
14.10-14.20 Tom Baker on "DCMI Metadata Terms, Linked Data, and modern syntax standards".	Tom	live
14.20-14.30 Karen Coyle & Pete Johnston on Description Set Profiles	Karen & Pete	canned
14.30-14.40 Participants on metaphors for understanding interoperability (Liddy Nevile)	Liddy	live
14.40- 15.00 Jutta Treviranus on inclusion and people with disabilities	Jutta	canned
15.00-15.10 Karen Rollitt on internationalization	Karen	live
15.10-15.20 Jon Mason & Sarah Currier on LOM and DC	Jon & Sarah	live
15.20-15.30 Mitsuharu Nagamori on the DC metadata registry. Participants get a short demo and then have a sample exercise to do in small groups	Mitsuharu	live
Note: 15.30-16.00 Afternoon Tea		
Room 1: (Technical) Agile development, application profiles and the Singapore Frame	chair - Emma	
16.00-17.00 Paul Walk, Emma Tonkin & Talat Chaudhri: The Agile Workshop - demonstration of some of the software tools which have been used in this approach; presentation proposing how these approaches might be used to enhance the early-mid stages of the Singapore Framework and an open opportunity for the community to discuss this, raise questions, voice concerns etc.	Paul Walk, E	live
Room 2: Using SKOS to enable linked vocabularies	chair - Jon Mason	
16.00-17.00 SKOS Workshop with Alistair Miles and Marcia Zeng	Alistair Miles,	live

Thursday 15 October

Time and session	presenter	live/canned
14:00-15:30 Special (not too technical) session on Strategic, policy and future issues for linked data	chair - Liddy Nevile	
<p>In this session, the focus is on the needs of senior administrators from the perspective of the needs of such people, and those attempting to serve them. Anticipated issues will concern institutional policies for linking of data, relationships with commercial publishers, copyright, business plans, investment needed, how to "sell" these ideas, how to "market" the results, preservation and long-term maintenance.</p>		
Big Room	chair - LN	
14.00-14.15 Web 3.0 – Tim B-L on TED and discussion	chair - LN	canned
14.15-14.30 Eric Miller How can library cataloging data be transformed to function within "Web 3.0" and be understood by non-library web applications?	Eric	live
Room 1	chair - LN	
14.30 - 15.30 Hands-on with Eric Miller and Zepheira's open-source Recollection Platform which they have deployed and hardened in applications for various public- and private-sector clients, most notably Library of Congress.	Eric	live
Big Room	chair - Akira Miyazawa	
14.30-14.40 Talat Chaudhri SWAP	Talat	live
14.40-14.50 Muriel Foulonneau on OAI-PMF	Muriel	canned
14.50-15.00 Herbert van de Sompel on OAI-ORE	Herbert	canned
15.00-15.30 Workshop wrap	Liddy	live
